

INDEX TO VOLUME 18 (Original Articles)

A

- Abdomen, acute, leiomyoma of cecum presenting as, 438
- Abscess (es), anorectal, primary fistulectomy for (symposium), 646
- Abscess (es), anorectal, treatment (symposium), 650
- Abscess (es), diverticular of colon, as site of origin of adenocarcinoma, 49
- Abscess (es), endometrioma masquerading as, 620
- Abscess (es), fistula and, treatment (symposium), 657
- Abscess (es), horseshoe fistula and, surgical significance of deep postanal space (symposium), 642
- Abscess (es), rectal caused by foreign body (chicken bone), 407
- Abscess (es), scrotal caused by foreign body (chicken bone), 407
- Abstracts, 79, 164, 254, 355, 440, 529, 628, 710
- Acute abdomen, see under Abdomen
- Adenocarcinoma (s), see also Carcinoma (s)
- Adenocarcinoma (s), appendiceal, 324
- Adenocarcinoma (s), diverticular abscess of colon as site of origin, 49
- Adenocarcinoma (s), invasive, focus confined to head of pedunculated colonic polyp, metastasis from, 67
- Adenocarcinoma (s), leiomyosarcoma and of rectum, synchronous, 228
- Adenocarcinoma (s), leukocyte-migration inhibition in determination of immunity in patients after operation, 100
- Adenocarcinoma (s), suture-line recurrence, 123
- Adenocarcinoma (s), synchronous of appendix and rectosigmoid, 678
- Adenoma (s), papillary, of colon and rectum, 249
- Adenoma (s), premalignancy of mucosal polyps of large intestine, histologic gradation, 483
- Adenoma (s), premalignancy of mucosal polyps of large intestine, time periods for malignant transformation estimated, 494
- Adenomatous polyp, see under Polyp (s)
- Age factors, ileostomy in the elderly, 115
- Age factors, malignant transformation of mucosal polyps, 494
- Air cyst, see under Cyst (s)
- American Society of Colon and Rectal Surgeons, Presidential Address, Flight from Chauvinism, 91
- American Society of Colon and Rectal Surgeons, 74th Annual Convention, preliminary program, 170
- Anal incontinence, see under Incontinence
- Anaplasia, basaloid small cell carcinoma of anus, 339
- Anaplasia, carcinoma of lung with metastasis to anus, 42
- Anastomosis, end-to-end with TA stapler, 311
- Anastomosis, end-to-side, 308
- Anastomosis, ileorectal, safe surgical technique, 107
- Anastomosis, rectoenteric, low end-to-side with single-layer wire, 308
- Anatomy, surgical, deep postanal space (symposium), 642
- Anatomy, surgical, rectocele, 237
- Angiography for diagnosis of bleeding in colonic diverticular disease (symposium), 565
- Announcements, 10, 34, 151, 160, 213, 482, 656, 693
- Anomaly (ies), congenital, duplication of transverse colon, 430
- Anomaly (ies), congenital, Gardner's syndrome and fibromatosis, 128
- Anomaly (ies), congenital, glioma-polypoid syndrome, 514
- Anomaly (ies), congenital, presacral tumors and cysts in adults, 581
- Anomaly (ies), congenital, tailgut cyst, 597
- Anomaly (ies), congenital, Turcot's syndrome, 514
- Anorectum, abscess and fistula, treatment (symposium), 657
- Anorectum, abscesses, primary fistulectomy for (symposium), 646
- Anorectum, abscesses, treatment (symposium), 650
- Anorectum, fistulas, complicated, surgical incisions for (symposium), 652
- Anorectum, horseshoe fistula and abscess, surgical significance of deep postanal space (symposium), 642
- Anorectum, postanal space, deep, surgical significance in horseshoe fistula and abscess (symposium), 642
- Anorectum, problems (symposium), 641
- Anterior resection, see under Resection
- Anus, Bowen's disease, 137
- Anus, Crohn's disease, lesions in (symposium), 200
- Anus, fibrosarcoma, 522
- Anus, fissures, chronic, lateral subcutaneous internal sphincterotomy for, 319
- Anus, fissures, lateral subcutaneous anal sphincterotomy for (symposium), 665
- Anus, imperforate, megarectum associated with, 699
- Anus, incontinence caused by disruption of anterior segment of sphincter, Warren operation for, 28
- Anus, metastasis of anaplastic carcinoma of lung to, 42
- Anus, Paget's disease and anaplastic basaloid small-cell carcinoma, 339
- Anus, sphincterotomy, lateral subcutaneous for anal fissure (symposium), 665
- Anus, sphincterotomy, lateral subcutaneous internal, for chronic anal fissure, 319
- Anus, squamous-cell carcinoma of arising in a giant condyloma acuminatum, 147
